Division of Waste Management

FROM: David J. Brooks
Geochemistry Section
Geotechnical Branch
Division of Waste Management

SUBJECT: REVIEW OF BWIP RESPONSE TO GOLDER AND USGS SCR COMMENTS
AND CONCERSN (SD-BWI-DIC-002 AND SD-BWI-DIC-003)

As requested the subject documents have been reviewed. The comments and concerns of both Golder and the USGS have been correlated with NRC geochemical issues as expressed in the draft DSCA (See Attachments 1 and 2). All of the geochemical comments in both documents were relatable to NRC issues. No major differences in emphasis between either document and the draft DSCA was perceived. I will be happy to discuss the review with you at any time.
