Linehan
 (Return to WM, 623-SS)

These reports are being submitted for review and approval per your request (see attached letter), and fulfill the FY85 deliverable milestone 189-10001, Subtask II, B. For future reference, the reports collectively carry the open-file number OF-WTWI-1985-50.

All of these reports have been previously submitted to the Department of Energy, and the information contained in this set of reports is identical to the contents of the individual submissions. Previous submissions are superseded by this set.

Due to the expense of duplication, core photographs are not included with these reports. All core photographs have previously been submitted to the Department of Energy, and the original 35 mm slides of the core are available at the Bureau for reference.

Also enclosed are current Well Core Ledger printouts delineating the status of core for each well. These printouts are up-to-date as of January 30, 1986. Processing of returned samples from Stone and Webster Engineering is continuing; data entry of documentation for returns cannot be completed until the processing is completed. At that time, an updated version of the Well Core Ledgers will be submitted to you.

If you have any questions regarding this submission, please do not hesitate to contact me.

Sincerely,

Edward C. Bingler
Deputy Director

Dear Dr. Sherwin:

As was discussed during your recent visit to the Bureau, we are assembling one entire set of Well Summary Reports and Supplements for review and approval by the Department of Energy. All of the reports included in this set have previously been submitted to the Department of Energy.

Even though the information contained in this set of reports is identical to the contents of the individual submissions, the previous submissions will be superseded by this set which will carry the open-file number OF-WTWI-1985-50.

The Supplements submitted March 8, 1985 carried the open-file number OF-WTWI-1985-8, and the Supplements submitted November 21, 1985 carried the open-file number OF-WTWI-1985-20. Reports submitted prior to March 8, 1985 were not placed on open file.

An updated version of the current Well Core Ledger will also be submitted. We anticipate the delivery date of these reports to be January 31, 1986.

I enjoyed talking with you during your visit. If I may be of further assistance, or if you have any questions regarding this final Well Summary Report submission, please do not hesitate to call me.

Sincerely,

Carolyn Condon
