

**DOCKET NUMBER
PROPOSED RULE PR 20**

From: "Mike Connelly" <mconnel5@rochester.rr.com>
To: <secy@nrc.gov>
Date: Wed, Jun 25, 2003 8:05 PM
Subject: nuclear waste for toys? zippers?

This must be an example of purple prose. Please enlighten me and tell me the NRC is doing its job of containing and isolating nuclear waste, not trying to recycle radioactivity into products and proclaim it "safe" at some level.

This would be the job, I imagine, of enterprizes who create nuclear waste, not the NRC. Please don't do their job for them, do your job instead and regulate, regulate, regulate.

Sincerely,

Mike Connelly
5848 Old Orchard Point
Livonia, NY 14487

p.s. I have to admit, I wonder what it is like to be part of a regulatory agency in a Bush administration. It must be hell. Don't let them deter you from doing your job just because they hate the R word. And PLEASE don't try to win their adoration by turning your responsibilities on their head and calling deregulation regulation.
