Last July, we informed you of our intent to locate Division of Waste Management representatives at the sites that the Department of Energy (DOE) has under investigation as potential repositories for the geologic disposal of high level waste (memo from J. G. Davis to Regional Administrators, RIII and RV dated July 29, 1983). We have now completed our selection of these representatives.

Mr. Paul Prestholt is the Senior On-Site Licensing Representative for the Nevada Nuclear Waste Storage Investigation Program, and will be located in Las Vegas, Nevada.

Dr. Tilak Verma is the Senior On-Site Licensing Representative for the Department of Energy's Salt Siting Program, which has investigations being carried out in the states of Utah, Texas, Louisiana, and Mississippi. Until one of these potential sites is selected for detailed characterization, Dr. Verma will be located in Columbus, Ohio, near DOE's Office of Nuclear Waste Isolation, the management office for the salt investigations.

Mssrs. Prestholt and Verma will begin these assignments on January 15, 1984.
