MEMORANDUM FOR: Robert J. Wright
Repository Projects Branch
Division of Waste Management

FROM: Everett A. Wick
Engineering Branch
Division of Waste Management

SUBJECT: DRAFT BWIP BARRIER MATERIALS TEST PLAN (SD-BWI-TP-022)

This is to request that you write to DOE and request the subject document.

This document has been referenced at least twice (once in a BWIP document addressing resolution of issues raised by NRC in the SCA and once by PNL in its November 1983 letter report on review of BWIP, pg. 5.53) but NRC does not have a copy.

We need a copy of the draft document to determine how BWIP resolved some of the SCA waste package issues and to prepare for the BWIP Waste Package meeting on February 27, 1984.

F. R. Cook requested a copy of this document and was told that RHO-BWIP will give us a copy of the draft at the same time they send it to DOE for comment. That will be at the February 27, 1984 Waste Package meeting.

I called Mike Smith on January 3, 1984 to request the document and got the same story Cook got. Smith said the document is in many pieces now. When I complained that we need the document to prepare for the Waste Package meeting, Smith suggested that it may be better to delay the meeting so we can review the document. I told Smith that the PNL reference shows a date of October 1983. Mike said that PNL really had only one chapter to review at that time.

It appears that our only chance to get the Barrier Materials Test Plan is to write to DOE and request it.
