DRAFT
REVISED AGENDA
DOE/NRC MEETING ON GEOCHEMISTRY
BASALT WASTE ISOLATION PROJECT

DATE: January 9 - 13, 1984

PLACE: Richland, WA.

PURPOSE: 1) To discuss NRC concerns, as expressed in the BWIP Draft Site Characterization Analysis.

2) To review geochemical aspects of BWIP investigation to date.

OBJECTIVES: 1) To collect data and review information developed by geochemical investigations to date.

2) To examine methods of investigation, calculations and the uncertainties involved.

3) To review how geochemical data is (to be) used in performance assessments (e.g., radionuclide migration, waste package environment definition, etc.)

4) To work toward an agreed-upon approach to handle NRC concerns.
