## SUMMARY

I called Mr. White to learn the outcome of the meeting we attended on the definition of HLW. Mr. White told me the group intends to prepare a report that will make the following recommendations:

- 1) the definition of HLW should be divorced from the source of the waste and only consider concentration or risk;
- 2) there should be a consistent continuum of waste categories from de-minimis to HLW;
- 3) disposal decisions for various types of waste should be made based on a site specific risk analysis;
- 4) consideration should be on a case-by-case basis rather than based on generic definitions;
- 5) need for better agency coordination;
- 6) need for peer review of technical approach to defining HLW; and
- 7) need for some group to provide oversight of the Federal Agencies programs.

## ACTION REQUIRED

FYI: There will be no further opportunity for persons outside the NCRP to review the report until it is published.
