SUBJECT: BWIP MEETINGS TO REVIEW SITE CHARACTERIZATION DATA

During the last BWIP site visit, July 11-15, general plans for future technical meetings were discussed, and these discussions continue. I pointed out to BWIP management that while these meetings are essential we also need meetings to become current on site characterization data. It was left that NRC would prepare a priority list of topics for such data meetings.

Please consider your needs along this line and discuss them with me on or before Wednesday, the 27th.

Based on these discussions, I shall then prepare a priority list.
