RE: ISAG Report, "In-Situ Research and Investigations in OECD Countries"

Dear Colleague:

Please find attached an English-language copy of the ISAG Status Report. It has been decided to provide it to the RWMC prior to publication, and possible to include a statement on the status of the geological disposal concept by the RWMC, as a Preface to the report.

The RWMC will meet at the end of March, and the report will be submitted for publication in English and French immediately afterwards.

Best wishes,

P.P. L. Chamney
Division of Radiation Protection
and Waste Management
