PRIVATE FUEL STORAGE FACILITY
PRIVATE FUEL STORAGE L.L.C.**

References: 1. June 16, 2003 NRC Staff and PFS Meeting

As discussed at the June 16, 2003 meeting, Private Fuel Storage (PFS) is providing the NRC Staff a copy of one of its expert reports for the consequences hearing. The report concerns the Structural Evaluation of an F-16 Jet Aircraft Impact on the HI-STORM Overpacks at the PFS Facility. In accordance with the Staff's request at the June 16 meeting, PFS has preliminarily marked and is submitting the report as if it contains Safeguards Information in order to allow the Staff to make a determination whether parts or all of the report should be designated as containing Safeguards Information. In accordance with the modified protective order entered by Atomic Safety and Licensing Board on June 26, 2003, we are also providing copies of the report directly to lead counsel for the Staff (Sherwin Turk) and the State (Denise Chancellor) and to the members of the Licensing Board. We will be sending electronic copies of the computer data files by a separate cover letter.

Several attachments to the report are publicly available documents and, accordingly, these attachments are bound separately from the report and are not marked as containing Safeguard Information. We are also providing copies of those attachments the report directly to lead counsel for the Staff and the State and to the members of the Licensing Board.
