P.O. Box 25406  
Denver, CO 80225

U.S. NUCLEAR REGULATORY COMMISSION (NRC) REQUEST FOR VIDEO LOGS FROM  
BOREHOLES H-1 AND UZ-6 (NN1-1988-3620)

As indicated in the enclosed letter, the NRC has requested copies of video logs for the UZ-6 and H-1 boreholes.

We are requesting Fenix and Scisson, under separate cover, to provide copies of the video logs for UZ-6. Based on conversations with Tony Buono of the U.S. Geological Survey (USGS), we understand that the video log for borehole H-1 is available through the USGS Denver, Colorado office. We further understand that the log is available in both dubbed and undubbed versions. Paul Prestholt, as the result of a telephone query, has expressed an interest in receiving the dubbed version if possible.

Please provide a copy of the requested tape to William Hughes of my office so that we may forward it, along with the UZ-6 tape, to the NRC. We would appreciate receiving the tape within two weeks.

Your assistance in this matter is appreciated. If you have any questions, please contact William T. Hughes at FTS 544-7959 or Michael A. Glora of Science Applications International Corporation at FTS 544-7609.
