U. S. Department of Energy RW-24
Washington, D. C. 20545

Dear Mr. Stein:

The Office of Nuclear Material Safety and Safeguards (NMSS), in conjunction with the Office of Information Resources Management (IRM) has developed an electronic system to capture, in full text, documents identified by the technical staff as pertinent to the Yucca Mountain repository project. This system is referred to as the Transitional Licensing Support System (TLSS), NRC's predecessor to the Licensing Support System (LSS).

To assure that all incoming correspondence, including all enclosures, received from your office concerning the Yucca Mountain repository project is captured by the TLSS, please address the envelopes for all such correspondence to:

U.S. Nuclear Regulatory Commission
Document Control Desk
Washington, DC 20555

IRM will process and forward the correspondence to the addressee(s).

If you have any questions concerning this procedure, please do not hesitate to call me on 301/492-3387, or Eileen Tana of my staff on 301/492-0438.

Sincerely,

ORIGINAL SIGNED BY
