Dear Sir:

I have been requested by the NRC staff to obtain a copy of the Reference Information Base (RIB) that Dr. Scott Sinnock of the Sandia National Laboratory is compiling. I understand that the RIB is in the formative stage and has not been baselined, however, since the RIB is designed to be the data base that will contain the information to be used in licensing, the staff is interested in its development.

If you agree to release the RIB in its present form to the NRC, please send it to me and I will see that it is distributed to the interested NRC staff.

Thank you for your consideration. If you have questions, please call 388-6125.

Sincerely,  
*Paul Prestholt*
