Mr. Ralph Stein, Associate Director
 Office of Systems Integration and Regulation
 Office of Civilian Radioactive Waste Management
 U. S. Department of Energy RW-24
 Washington, D. C. 20545

Dear Mr. Stein:

Due to reorganizations within the NRC, and other personnel changes which have occurred, we are sending an updated list of recipients for DOE and DOE contractor reports related to: 1) the high-level waste (HLW) repository program; 2) programmatic documents covering OCRWM activities; 3) MRS-related documents; and 4) transportation-related documents. These changes pertain to recipients within the Office of Nuclear Material Safety and Safeguards and the Waste Management Branch, Office of Nuclear Regulatory Research only, and do not affect your distribution lists for other NRC offices, including the NRC Library requirements. To ensure that the documents continue to be routed to the appropriate office in case of future personnel changes, we request that position titles be used in lieu of individual names. The required copies are indicated in parentheses.

HLW repository-related documents should be sent to:
