AGENDA QUESTIONS  
NTS REVIEW MEETING  
JUNE 2, 1982

1. What are the potential licensing issues regarding the Yucca Mountain Site?
2. What is the status of the NNWSI regarding resolution of these issues?
3. What data and information is needed to determine whether (1) all important information needs and unresolved issues are identified, (2) the methods of testing and analysis proposed for the planned site characterization program are appropriate, and (3) the collected data and methods of analysis will be of adequate quality and reliability to support an application for a Construction Authorization?
4. What site information must be obtained from an underground test facility?
