(Return to WM, 623-SS)

In a telephone conversation on July 24, I learned from Bob Nelson, DOE, that the Nevada Test Site project is attempting to consolidate project visitations into a single annual event, viz. the annual geologic-hydrologic peer review. However, it is recognized that NRC may have special needs which may require a separate visitation.

The 1981 peer review is scheduled for August 24 to 28 at the Riviera Hotel, Las Vegas. Although not open to the public, a limited number of NRC and NRC contractor people can be accommodated. Hence, the meeting could be useful as an in-depth introduction to NTS for NRC contractors and NRC persons who have such a need.

I suggest that such persons be identified and the names given to me by August 5, so they can be forwarded to DOE HQ and to Nelson.
