SUBJECT: POST-WORKSHOP NNWSI HYDROGEOLOGY MEETING WITH  
CONTRACTORS, MARCH 14-15, 1983

Attached is a copy of the agenda for the post-workshop NNWSI hydrogeology meeting with NRC contractors. The meeting will be held on March 14-15, 1983 in Silver Spring, MD. The purpose of this meeting will be to define further the site technical position on NNWSI hydrogeologic characterization, assign work tasks to the contractors as well as to have an open technical discussion of NNWSI site characterization.

Also attached is a copy of the scope, purpose and draft outline for the Site Technical Position (STP). This package will be a meeting "handout" to serve as a focus of discussion and comment. In particular, I wish to resolve initial comments on the format of the STP prior to preparing the first draft.

"ORIGINAL SIGNED BY"

Jeffrey A. Pohle  
High-Level Waste Technical
