The purpose of this modification is to modify Section F to include instructions for preparing international trip reports. Accordingly, the contract is hereby modified as follows:

Under Section F, Deliveries or Performance, the following is incorporated as Section F.7:

"F.7 INSTRUCTIONS FOR PREPARING INTERNATIONAL TRIP REPORTS

Upon the completion of a trip to a foreign country the contractor shall provide a report which shall include the following:

1. Trip reports that document the results of international travel shall be prepared by the traveler, following the attached model. The trip report should be as long as necessary to convey the essence of the trip, but not longer than necessary (e.g., a few pages may be adequate).
2. Trip reports shall be submitted within 30 days of completing the foreign travel. However, if the results of the foreign travel are of high interest to the NRC for safety or policy reasons, the traveler shall provide an oral report to his or her NRC Project Officer as soon as possible. If deemed necessary by the project officer, a brief (one page-maximum) "quick look" summary shall be sent to the appropriate NRC Project Officer within one week of completing the foreign travel. Interoffice distribution of the quick look report will be determined by the Deputy Office Director.
3. In order to improve coordination, trip reports shall be submitted only to the NRC Project Officer. The NRC Project Officer will in turn review the reports and distribute them internally to the appropriate NRC Offices, staff, and to the ADAMS document file. The NRC Project Officer will also make the determination as to whether the trip report could/should be transmitted to the Commission. All trip reports shall be attached to a cover letter to the NRC Project Officer.
4. Whenever possible, every effort should be made to issue one consolidated trip report when there are multiple travelers by the same contractor.
5. Unless stated otherwise, trip reports are to be marked as nonpublic, for internal use only. If the report contains sensitive information it shall be identified as such and have limited internal distribution. The NRC Project Officer will be responsible for placing the document into ADAMS."

All other terms and conditions of the subject contract remain unchanged.

This modification does not obligate any funds.
