NOTE FOR: R. L. Johnson

Division of Waste Management

FROM: Michael Tokar  
Engineering Branch  
Division of Waste Management

SUBJECT: SALT EA REVIEW STATUS DUMP

Pursuant to your request for a "status dump" of work done under the EA Review Plan preparation tasks, we have nothing further to report or provide beyond what we have provided you in the past on several occasions, a summary of which was provided via a memorandum from T. C. Johnson on October 25, 1984.

Please note that in view of the continued uncertainty over (1) the substance, form, and need to comment on waste package information in the draft EAs, (2) whether we will or will not have a waste package workshop in the near future, our attention and resources for the past several weeks have shifted to low-level waste matters such as topical report reviews.
