SITE ENGINEERING PROPERTIES DATA BASE (SEPDB) TAPE TRANSMITTAL

This letter is to transmit a set of tapes of the SEPDB, current as of June 7, 1989. This is in accordance with memorandum FW-14, dated April 28, 1989, from Barbara Cerny, Director, Information Resources Management Division, Office of Civilian Radioactive Waste Management. We are also including a current data dictionary and a user's guide.

If you have any difficulty understanding the format or otherwise need assistance, please call Donald E. Livingston of my staff at 794-7944. We will be happy to meet with you and your staff at your convenience regarding this matter.

Carl P. Gertz, Project Manager
Yucca Mountain Project Office

A KING

John Linehan, Director
Repository Licensing and Quality
Assurance Project Directorate
Division of High-Level Waste Management
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Linehan:

This letter is to notify you that the Department of Energy is responding to your request of April 24, 1989, for the tapes of the Site and Engineering Properties Data Base (SEPDB). The current release of the SEPDB, along with relevant documentation, will be provided by the Yucca Mountain Project Office to the Nuclear Regulatory Commission's senior on-site licensing representative, Mr. Paul T. Prestholt. Mr. Prestholt will be able to arrange a schedule with the Project Office for subsequent transmittals.

The current version of the SEPDB was not designed to be an online system, easily accessible to outside users. Rather, it has served as a data repository from which the staff of Sandia National Laboratory answered requests and generated reports and data. While we would be glad to assist you in understanding the SEPDB as it stands, we would also like to discuss how this information would be of most use to you.

If you have any questions, please feel free to call me on 586-9433 or Mr. Gordon Appel on 586-6046.

Sincerely,

Ralph Stein

Ralph Stein
Associate Director for Systems
Integration and Regulations
Office of Civilian Radioactive
Waste Management
