4. RECENT DEVELOPMENTS IN MEMBER COUNTRIES

- Participants are requested to bring a brief written contribution (30 copies) summarising the main points of recent developments and activities related to in-situ research and investigations for geological disposal in their respective countries or organisations.
- The contributions may also be used to provide input for the next edition (No. 3) of the NEA Nuclear Waste Bulletin.

5. PROGRESS OF NEA ACTIVITIES OF INTEREST TO ISAG

a) Performance Assessment Advisory Group (PAAG)

- Summary Record of PAAG Meeting of 25-27 January 1988 SEN/RWM(88)4
- Summary and Conclusions of NEA Workshop on Near-Field Assessment of Repositories for Low- and Intermediate-Level Waste (Baden, Switzerland, November 1988) PAAG/DOC(87)10
- NEA Working Group on Scenario Identification and Selection

b) International Stripa Project RWM/DOC(88)5

c) Alligator Rivers Natural Analogue Project Oral report

d) NEA Documents on Status of National Waste Management Programme RWM/DOC(88)6

e) NEA Expert Group on Geochemical Modelling and Data SEN/RWM(88)5

- Establishment of the GGMD
- ISIRS
- TDB

f) NEA Nuclear Waste Bulletin Oral report

6. PROGRESS OF ISAG ACTIVITIES

a) Publication of Document on In-Situ Research and Investigations in OECD Countries RWM/DOC(88)4

b) Interaction Between Experiments and Modelling ISAG/DOC(87)6

- Presentation of the Discussion Document prepared by the joint PAAG/ISAG Consultant Group.
- Discussion on the work of the Consultant Group, and development of initiatives to enhance interaction.

c) Preliminary Report on the NEA Workshop on
Excavation Effects

Oral Report

- Review of Workshop discussions, conclusions and recommendations.

d) Proposed Workshop on Backfilling and Sealing

ISAG/DOC(88)1

- ISAG is invited to advise the Secretariat on the scope and content of the proposed workshop.

7. DISCUSSION OF ISSUES IDENTIFIED AT SECOND MEETING
OF ISAG (Paris, June 1987)

a) Consideration of Site Characterisation: In-Situ
Experiments and Performance Assessment Needs

- Discussion of needs to be addressed, and of possible initiatives (i.e.: workshops, meeting groups) that could be developed by ISAG.
- Participants are requested to provide a 2-3 page written outline (25 copies) of the site characterisation objectives and requirements of their respective national programmes, identifying in particular the rationale for these objectives and requirements, and the processes of implementation. This information on national approaches will be valuable in the discussions on general or international aspects of site characterisation.

b) Consideration of how Boundary Conditions are Identified
for In-Situ Experiments

- Discussion of general approaches to this issue, and of the need for any initiatives to be developed by ISAG.
- A summary of relevant information obtained from the questionnaire on interaction between experiments and modelling will be prepared and presented by the Secretariat, to facilitate discussion.

8. PROPOSALS FOR ADDITIONAL ACTIVITIES OF ISAG

Participants are invited to propose any new issues or topics which they believe should be addressed by ISAG.

9. ANY OTHER BUSINESS

10. DATE OF NEXT MEETING
