PRESENTATION ON HIGH-LEVEL WASTE LICENSING PROCESS

We understand from discussions with F. Stanley Echols of the U.S. Department of Energy (DOE) Office of the General Counsel that you have agreed to participate in a presentation to key Yucca Mountain Project staff on the U.S. Nuclear Regulatory Commission (NRC) High-Level Waste licensing process. The purpose of this letter is to confirm that the presentation is currently scheduled for the afternoon of July 27, 1989. As you know, the other speakers will include Francis Cameron of the NRC, Mr. Echols, and Malachy Murphy, Special Attorney General for the State of Nevada.

We have reserved the DOE auditorium at 2753 South Highland Avenue for the afternoon of July 27, 1989, in order to accommodate the presentations. As currently scheduled, we expect that the licensing process discussions would start at 1:30 p.m. and continue for approximately three hours, depending on the number of questions involved.

In view of the critical importance of this subject, we sincerely appreciate your willingness to participate in the presentation. If we can be of assistance in any way, please do not hesitate to contact Maxwell B. Blanchard of my staff at (702) 794-7939 or FTS 544-7939 or Michael A. Glora of Science Applications International Corporation at (702) 794-7609 or FTS 544-7609.

Carl P. Gertz, Project Manager
Yucca Mountain Project Office
