MEMORANDUM FOR: John G. Davis, Director
Office of Nuclear Material Safety
and Safeguards

FROM: Robert E. Browning, Director
Division of Waste Management

SUBJECT: ENVIRONMENTAL ASSESSMENT REVIEW PLAN

Enclosed is the final environmental assessment review plan. This plan will be used by the NRC staff and its contractors in reviewing draft environmental assessments that are currently in preparation by the DOE and expected to be published in the fall of 1984. The environmental assessments (EA) are required by Section 112(b) of the Nuclear Waste Policy Act. The DOE siting guidelines specify that a draft environmental assessment will be issued for public comment. It is the intent of the NRC staff to formally comment on the EA's. However, as noted in the staff's revisions to 10 CFR Part 60, the staff would not comment upon the methodology used by DOE to compare sites or upon the relative merits of one site against another.
