Dear Dr. Conti:

In response to your letter request of June 15, 1984, regarding important issues and uncertainties that should be examined when the NRC reviews the Environmental Assessments provided by DOE, Battelle's Columbus Laboratories is pleased to provide the enclosed report.

The report was prepared principally by Neil Miller with assistance from myself and other key program personnel. If you have any questions, please contact Neil at FTS 976-7518 or me at 976-7276.

Sincerely,

David Stahl
