SUBJECT: WASTE PACKAGE WORKSHOP

On several occasions, we have expressed a desire for a waste package workshop with DOE contractors, but we have been unable to do so because the DOE contractor staff have been preoccupied preparing the EA drafts. With the continued slippage of the date for issuance of the EAs to mid-to-late November (the most recent date we have), we may now have a window for a workshop that would provide us with an opportunity to learn the current status and places for DOE's waste package program. It may be desirable to hold one workshop for all three projects or perhaps it would be preferable to split them up. In any event, we should appreciate your assistance in setting up a workshop(s) for waste package at or around the late October/early November period. This would enable us to factor the information obtained from the workshop(s) into our EA reviews.

If you have any questions, please contact me at x74088.
