**DOCKET NUMBER**  
**PROPOSED RULE** **PR 20**  
**(68FR09595)**

July 13, 2003

Chairman Richard A. Meserve  
Nuclear Regulatory Commission  
Washington, DC 20555

**RE: Radioactive Recycling – A Crime Against Humanity**

Dear Chairman Meserve,

We have many lively debates at family dinners. When it comes to recycling radioactive materials, however, there is no debate.

We all agree that radioactive recycling puts everyone at risk, including future generations.

We oppose forced exposure through radioactive recycling. *We urge you to support a prohibition on deregulation of radioactive wastes and materials.*

Sincerely,

  
Kathy Stein

  
John Stein
