Mr. Christopher M. Regan
USNRC - Mail Stop O-13D 13
Office of Nuclear Materials Safety and Safeguards
Spent Fuel Project Office
Washington, DC 20555 0001

Subject: GE Morris Operation Special Material (SNM) License Renewal

Reference: (1) USNRC Letter May 16, 2003 letter; "Request for Additional Information Regarding Application for Renewal of Special Nuclear Material License SNM-2500 (Docket 72-1)
(2) TAC L23091

Dear Mr. Regan:

By letter dated May 16, 2003, USNRC requested additional information regarding SNM-2500 License renewal. In response to Ref (1), GE Morris Operation will respond to the request for additional information by August 8, 2003 providing answers to the majority of the questions.

Some questions, especially in the area of aging management and those involving original design basis assumptions, require additional review and consideration. Due to the type and volume of information requested additional time will be required to prepare the response.

We anticipate completing our review and providing a response by September 30, 2003.

JE Ellis
Manager, Morris Operation
GE Nuclear Energy
