

July 31, 2003

MEMORANDUM TO: Shawn Rochelle Smith, Co-Chair
NMP Pilot Project I Working Group, NRC

Ruth E. McBurney, Co-Chair
NMP Pilot Project I Working Group, Texas

FROM: Charles L. Miller, Director
Division of Industrial and **/RA/**
Medical Nuclear Safety, NMSS

SUBJECT: REVISED LIST OF REGULATORY NEEDS

The purpose of this memorandum is to replace the memorandum dated July 18, 2003, which transmitted the list of regulatory needs. Based on recent discussions, I have removed the predecisional marking from the list because it is not likely that detailed descriptions will be prepared or that the listed items will be discussed.

The rulemaking items are already publicly available but details of the Information Technology Solutions and Other Initiatives may not be available to the public. "Compliance reviews of the DOE laboratories" was removed from the list of Other Initiatives because it is not likely that the Agreement States would be involved with that activity.

Thank you for clarifying your use of the listed information.

OFFICIAL RECORD COPY

Attachment, List of Regulatory Needs (NMSS) July 2003

Rulemaking:

- Security Requirements for Portable Gauges Containing Byproduct Materials
- Options for Addressing Training and Experience Issues Associated with Medical Specialty Boards by NRC
- Controlling the Disposition of Solid Materials
- Financial Assurance Amendments for Materials Licensees
- Transfers of Certain Source Materials by Specific Licensees
- Compatibility with IAEA Transportation Safety Standards (TS-R-1) and Other Transportation Safety Amendments
- Licensing Radioactive Mixed Waste in RCRA

Information Technology Solutions:

- Web-Based Licensing for the Byproduct Materials Program
- National Source Tracking for Security of Radioactive Materials

Other Initiatives:

- Update Inspection and Licensing Guidance
- General License Tracking
- Comprehensive Review and Implementation of Safeguards and Security Revisions to Materials Activities
- Jurisdictional Issues for Source Material
- Package Performance Studies
- Private Fuel Storage Licensing Status
- Consensus Standards for Decommissioning
