Mr. J. H. Anttonen
Assistant Manager for Commercial Nuclear Waste
Richland Operations Office
U.S. Department of Energy
P.O. Box 550
Richland, Wa. 99352

Dear Mr. Anttonen:

The purpose of this letter is to notify you of the assignment of William Belke to this Office during the period June 3 to 7, 1987. He will be attending the readiness review meeting and reviewing other BWIP facilities in the 600 and 200W Areas. In particular we will want to observe the core storage area in the 200W area and various bore holes in and around the Hanford Reservation.

Access to RHO personnel is not necessary and not expected, although it would be productive to foster good horizontal communications consistent with desire voiced by DOE/HDQS to improve such communications and reflecting the draft protocol, forwarded by my letter to you of May 29, 1987.

Mr. Belke and/or myself would expect to inform you and/or other DOE and RHO management of any items and concerns which we believe would be of interest to DOE prior to Belke's leaving the site, consistent with our objective of providing such feedback of information.

Mr. Belke's security clearance to the site has been requested via separate correspondence through NRC/DOE security.

Sincerely,

F. Robert Cook
Senior On-Site Licensing
Representative, BWIP
Division of High-level Waste Management
Office of Nuclear Material Safety
and Safeguards
