PRESS NOTICE

June 8, 1987

**SUBJECT:** Nuclear Waste Board, Nuclear Waste Advisory Council  
Regular Meetings

**DATE:** June 19, 1987

**TIME:** Advisory Council - 9:00 a.m.  
Nuclear Waste Board - 1:30 p.m.

**PLACE:** EFSEC Hearings Room, 4224 - 6th Avenue S.E., Building 1, Lacey,  
Washington

The Nuclear Waste Board and Nuclear Waste Advisory Council will meet on June 19 to review key technical and programmatic issues which must be addressed and resolved if the Hanford site continues as a candidate site for development as a repository. Late this fall, the U. S. Department of Energy plans to issue a Site Characterization Plan (SCP) which will describe a five to six year, 1.2 billion dollar study program at Hanford. USDOE has scheduled 90 days for review of this 9,500 page document which cites 1,865 references. The Board and Council's early review will allow staff and contractors to focus on key state of Washington issues.

The Board will also review proposed changes to the Nuclear Waste Policy Act which are currently being considered by Congress. Proposals include incentive plans, regional storage and on-site storage. Staff will report on the Nuclear Waste Advisory Council's statewide town meetings.

The Board and Council encourage public comment at their meetings. Both meetings will be held at the EFSEC Hearings Room, 4224 - 6th Avenue S.E., Building 1, Rowesix complex, in Lacey, Washington.

For more information, contact Marta Wilder or Don Provost at (206) 459-6670.
