Currently Read as Follows:

Section 1.1.2, add a new paragraph (see below)

Changed to Read:

Section 1.1.2, add a new 1st paragraph as follows:

Scientific planning documents consist of Study Plans for site characterization activities and Scientific Investigation Plans for all other activities. These are higher level planning documents which describe a group of activities within a common technical area. These documents also identify additional planning documents called Activity Plans which are prepared for each activity or a combination of activities. Activity Plans provide the sequence and details of how the work is performed and how applicable QA procedures are implemented.
