Dear Mr. Jones:

As per my conversation of August 27, 1987 with Dr. Yoram Shoham, I am sending you this letter inquiring about the possibility of getting the magnetotelluric data interpretation of the Columbia Basalt Plateau done by Shell Oil Company.

Shell Oil interpretation will be used mainly by the NRC staff as a part of the information collected for the site characterization of the Hanford Site as a high-level waste repository and will be kept as proprietary information.

If you have any question, please do not hesitate to call me at (301)427-4211. Thank you for your cooperation.

Sincerely,

151
