Samco Rd, Unit E to Black Hawk, South Dakota

American Technical Services had moved its Rapid City office located at 2843 Samco Rd., Unit E to 7557 Black Hawk Rd., Black Hawk, South Dakota 57718. This change was a change in the location at which the gauge is stored. During the time of gauge storage at Samco Rd. there never was any abnormal leak test results. If you have any steps that we need to take, please let us know. Only those persons who have had the proper training have access to the nuclear density gauge.

If you have any further questions, please contact our office.
