MEMORANDUM TO: SWR-1000 Project File

FROM: Joseph M. Sebrosky, Senior Project Manager **/RA/**
New Reactors Section
New, Research and Test Reactors Program
Division of Regulatory Improvement Programs, NRR

SUBJECT: FRAMATOME-ANP PRESENTATION MATERIAL FROM JUNE 23,
2003, THROUGH JUNE 27, 2003, VISIT TO GERMANY SWR-1000
TEST FACILITIES

From June 23 through June 27, 2003, NRC staff visited Framatome ANP (FANP) facilities in Offenbach, Karlstein and Erlangen, Germany. The purpose of the visit was to introduce the test facilities to the NRC staff and to provide the opportunity for the staff to review and observe FANP's quality assurance controls at these facilities. Attached to this memorandum is a compact disc containing the presentation material that FANP provided during the staff's visit.

Project No. 723

Attachment: As stated
