

STEIN LETTER RE LLNL

- 1 -

OCT 24 1989

Mr. Ralph Stein, Associate Director
for Systems Integration and Regulations
Office of Civilian Radioactive Waste Management
U. S. Department of Energy, RW-30
Washington, D.C. 20545

Dear Mr. Stein:

On September 7, 1989, the U. S. Department of Energy (DOE) forwarded four Change Notices to the Lawrence Livermore National Laboratory (LLNL) Quality Assurance Program Plan (QAPP) 033-YMP-R, Revision 0 for U. S. Nuclear Regulatory Commission (NRC) staff review and acceptance.

The NRC staff's evaluation is contained in the enclosed Safety Evaluation (SE). As noted in the conclusion of the SE, the NRC staff finds that the LLNL QAPP, Revision 0, including the Change Notices, meets the applicable criteria of Subpart G to 10 CFR Part 60 and Appendix B to 10 CFR Part 50, and the plan is fully acceptable.

Changes may be made to the LLNL QAPP, if these changes do not downgrade DOE commitments that the NRC has already accepted. Changes that downgrade the program commitments should be submitted to the NRC for its review, evaluation and acceptance.

A copy of this letter and the SE should be included with each controlled copy of the LLNL QAPP, Revision 0. One copy should be resubmitted to NRC. Should you have any questions, please contact Mark Delligatti of my staff on (301) 492-0430.

Sincerely,

JS

John J. Linehan, Director
Repository Licensing and Quality
Assurance Project Directorate
Division of High-Level Waste Management

Enclosure: As stated
