Dear Dr. Wyman:

I would like to thank you for the time you spent discussing a possible high-level waste repository at Nevada Test Site, during our meeting on February 20. Your expertise contributed significantly to our efforts. I would also like to thank you for your letter of April 30, which is helpful in understanding earthquake damage to underground structures.

Enclosed, for your information, is a copy of our trip report. Please feel free to comment on it.

Sincerely,
