

NRC Visit to SWR 1000 Test Facilities

Introduction

***Greg Hudson
Framatome ANP Inc
June 23, 2003***

FANP Goals

- > PRIMARY OBJECTIVE: “....obtain timely and specific feedback on test programs that may be used to support the Design Certification of the SWR-1000 in the US. . . .”
(March 27, 2003 letter)*
- > Feedback will help FANP provide a Design Certification application that is more complete and acceptable to the NRC.”*
- > Feedback that would identify any potential NRC issues would be greatly appreciated.*
