VIDEO LOGS FOR BOREHOLES UZ-6 AND H-1

We are transmitting with this letter, VHS copies of the requested video logs. In response to earlier questions, the enclosed tapes are the dubbed versions where available.

Please note that, in the case of H-1, portions of the tape are of limited viewing quality. However, because both the down-hole and up-hole runs are included, we believe the tape provides adequate overall coverage for borehole viewing.

Please contact William T. Hughes of my office at 794-7959 if you have any questions.
