August 6, 2003

Mr. John L. Skolds Chairman and CEO AmerGen Energy Company, LLC 4300 Winfield Road 5th Floor Warrenville, IL 60555

SUBJECT: INSPECTION OF NUCLEAR REACTOR SAFEGUARDS INTERIM

COMPENSATORY MEASURES, TEMPORARY INSTRUCTION 2515/148,

REVISION 2, AT THE OYSTER CREEK GENERATING STATION INSPECTION

REPORT NO. 05000219/2003007

Dear Mr. Skolds:

On June 26, 2003, the U.S. Nuclear Regulatory Commission (USNRC) completed a special inspection at the Oyster Creek Generating Station, in accordance with Temporary Instruction 2515/148, Revision 2, "Inspection of Nuclear Reactor Safeguards Interim Compensatory Measures." The enclosed report documents the inspection findings which were discussed on June 26, 2003, with Mr. Ernest Harkness, Site Vice President, Mr. Richard Ewart, Manager of Security, and other members of your staff.

This inspection examined activities conducted under your license as they relate to safety and to compliance with the Commission's rules and regulations, and with the conditions of your license. The specific purpose of this inspection was to verify that AmerGen Energy Company (AmerGen) effectively implemented the interim compensatory measures (ICMs) at the Oyster Creek Generating Station (Oyster Creek) imposed by the Order Modifying License issued February 25, 2002; and that the ICMs were successfully incorporated into your site physical protection strategy and security program. Additionally, the objective of the inspection was to ensure that relevant procedures were developed and implemented, and that interface agreements with offsite organizations were developed and coordinated, as required. The inspectors reviewed selected procedures and records, observed activities, and interviewed personnel.

Based on the results of this inspection, no findings of significance were identified. The inspection team verified and confirmed that AmerGen had effectively implemented the specifications of the Order Modifying License issued February 25, 2002 at the Oyster Creek Generating Station (Oyster Creek).

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter, without enclosure will be made available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at http://www.nrc.gov/reading-rm/adams.html (the Public Electronic Reading Room).

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

/RA/

Wayne D. Lanning, Director Division of Reactor Safety
