SOB SSL STELLDOE/Utility Spent Fuel Storage
Technical Review Meeting

(Ref: WM, 623-SS)

'87 MAR 26 AIO:16

Sponsored by U.S. Department of Energy
Electric Power Research Institute
and Pacific Northwest Laboratory

Preparations are being made for a DOE/Utility Spent Fuel Storage Technical Review meeting to be held May 12 and 13 at a DOE facility in the Washington DC area (Germantown). Presentations will be by invitation.

Information regarding meeting location, lodging/meals, and agenda will be forthcoming as soon as plans are finalized. For further information, contact Ruth Dollar, Pacific Northwest Laboratory, 509/375-2586.

Meeting ScheduleTuesday, May 12, 1987

- 9:30am Registration
- 10:00 Welcome & Opening Remarks
- 10:15 Overview of DOE's Commercial Spent Fuel Management Program
- 10:30 Virginia Power/DOE PWR Cask Performance Testing Activities
 - Cask Handling at INEL
 - Cask Performance Test Results and Shielding Analysis
 - VP ISFSI Activities at Surry Plant
- 12:30 Lunch
- 1:30 Carolina Power & Light/DOE Cooperative Demonstrations
 - Development of H.B. Robinson ISFSI
 - Nutech Technology Status
- 2:30 Break
- 2:45 Rod Consolidation
 - NUSCO/DOE Cooperative Demonstration Status
 - NUSCO Rod Consolidation Equipment Technology
 - Results of Rod Consolidation Demonstration at Battelle Columbus
 - RG&E Rod Consolidation Equipment Technology
 - Results of Rod Consolidation at West Valley

Wednesday, May 13

- 8:00am Spent Fuel Storage Technology
 - Temperature Limits for Spent Fuel Storage
 - Spent Fuel Oxidation Test Results
 - Concrete Cask Technology
- 9:15 International Spent Fuel Information Update
- 9:45 Break
- 10:00 Future Storage Plans: A Utility Panel
- 12:00 Meeting Wrap-Up
- 12:30 Lunch
- 1:30 Workshop--Non-Fuel Bearing Components
