Re: PROPOSED APPENDIX 7 VISIT TO SANDIA NATIONAL LABORATORY
ON MARCH 6, 1987

Dear Dr. Vieth:

The NRC Division of Waste Management proposes a visit to Sandia National Laboratory on March 6, 1987. The topic for discussion will be the Conceptual Design Report (CDR) for the proposed underground facility. Dr. Dinesh Gupta and Mr. John Peshel of the NRC, WMEG Branch, and Dr. Jaac Daemen, University of Arizona, will accompany me.

In order to prepare the NRC staff for the above visit, it is requested that the complete draft CDR be made available for review at the NRC Las Vegas office during the weeks of February 23 and March 2, 1987. If possible, it is requested that three copies of the CDR be provided. Dr. Thomas Hunter, SNL, has been consulted and has expressed no objection.

It is further requested that a tour of "N" Tunnel at the NTS be arranged for March 2, 1987. Approximately eight NRC personnel will be involved in the tour. If this is acceptable, I will make all arrangements for badging of NRC personnel.

This visit would be conducted under Appendix 7 rules and understanding. No advance preparation by NNWSI personnel is expected.

Please contact me on (702) 388-6125 (FTS: 598-6125) if there are any questions.
