PROPOSED SCHEDULE OF NEVADA NUCLEAR WASTE STORAGE INVESTIGATIONS (NNWSI) PROJECT/NUCLEAR REGULATORY COMMISSION (NRC) TECHNICAL MEETINGS (WMPO ACTION ITEM #86-920)

Based on our January 8, 1986 transmittal to you and on discussions, during the February 19-20, 1986, Management Meeting, among yourself, P. Prestholt and NNWSI Project representatives, the following schedule of technical meetings between NNWSI Project and NRC is proposed for the remainder of 1986.

- o NNWSI Project Issues Hierarchy - May
- o NNWSI Project Performance Allocation/Performance Assessment - June
- o NNWSI Project Seismic/Tectonics Position - July
- o NNWSI Exploratory Shaft Design/Construction - Second Meeting - September
- o NNWSI Exploratory Shaft Testing - October
- o NNWSI Hydrology and Geology - TBD

The Project Issues Hierarchy and Performance Allocation Meeting schedules assume that generic meetings on these subjects precede these dates. We prefer that these meetings be held about the middle of the indicated month. Please confirm the general timing by March 31, 1986, so that we can proceed with detailed planning.

These meetings may all have an influence on the Site Characterization Plan (SCP). It is therefore extremely important that these meetings be held prior to submittal of that document, currently scheduled for December 1986.

Please contact J. Szymanski to confirm the above schedule.
