Dear Mr. Loux:

I reviewed your letter to Bob Browning pursuant to our meeting on Friday, February 14, 1986. I was somewhat puzzled by your point number 5. In that point, you noted that you had formally requested Quality Assurance (QA) plans and procedures for the Office of Geologic Repositories (OGR), OGR Project Offices and the prime contractors for each office. You further noted that the same had been formally requested from the Nevada Project Office, with little success.

We have thoroughly checked the letters that we received from your office and find no record of any such request. If your request was verbal, there is obviously no record to check; however, we do not consider such undocumented request as formal.

It is not our intent to keep secret our QA plans or procedures. They will be provided to your office under separate cover.

Sincerely,

A handwritten signature in cursive script that reads "Donald L. Vieth".
