Hubert J. Miller, Chief
High Level Waste Tech. Development Branch
Division of Waste Management
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Miller:

It was certainly, a pleasure to meet with you and members of your staff in Carson City, last week. Our meeting was very informative and productive and I look forward to developing an ongoing relationship as we become more involved in this issue.

Two of the issues that we discussed, a formal understanding between the State of Nevada and NRC, and the timing and magnitude of a proposal from the State to NRC relating to site characterization reports, are ones that we would be interested to learn more about.

Should NRC have formal relationships with other states, copies of those agreements would be very helpful. If not, perhaps an outline of what you envision would be useful.

I look forward to hearing from you on these matters and to our establishing an active working relationship. If you have any questions, please do not hesitate to contact me.

Sincerely,

Robert R. Loux
