Dear Mr. Youngblood:

I have received a copy from you of your February 12, 1988, letter to Ralph Stein, OCRWM Director of the Engineering and Geotechnical Division. In that letter, I note that you have proposed one or more technical meetings with DOE, during the weeks of March 14 and March 21, to discuss NRC's preliminary concerns with the Yucca Mountain CDSCP, including alternative conceptual models for the site.

I would appreciate your keeping me informed of meeting topics, agenda and planned dates of the meeting(s) so that representatives of this office can plan to attend and will have received the information packages prior to the meeting(s).

Thank you for your attention to this request. If you have any questions on this matter, please feel free to contact me at (702)885-3744.

Sincerely,

  
Robert L. Loux  
Executive Director
