Dear Dr. McCreless:

SUBJECT: NUCLEAR WASTE MANAGEMENT LEGISLATION AND REGULATIONS HANDBOOK

Reference: Letter of October 15, 1985, from T. McCreless to D. Dawson, Request for Two Copies of the "Nuclear Waste Management Legislation and Regulations Handbook"

This letter is in response to your request in the referenced letter. Your interest in the subject handbook is appreciated. However, we regret that we cannot provide you with copies of this document.

The handbook is a controlled document, compiled and maintained for use by the Salt Repository Project (SRP). It is an internal, working, reference document and we do not have sufficient copies for distribution outside the project. Also, we feel that external distribution would not be appropriate because this handbook contains nothing that is not readily available to NRC through your own organization. We anticipate a number of the changes to the compilation in the near future with the revision to 10 CFR 60 soon to be issued and currently we have no agreement or way of maintaining a controlled document at the NRC. We anticipate developing such an agreement with NRC and DOE-HQ within the next few years for certain reports; however, the SRP cannot act unilaterally in the

area of generic controlled documents without such an agreement involving DOE-HQ and the NRC staff. If you wish to accelerate such an agreement, please work with R. Johnson to do this.

If you would like a copy of the regulations contained in the handbook, please contact Robert Johnson (427-4674). He is aware of the contents of the handbook and should be able to provide you with any of the information you may require. We also request that any future requests that you have for members of the Salt Repository Project be made in accordance with the procedural agreements signed between NRC and DOE. We understand that Scott Grace of the NRC is working to find more ways of making the information about the SRP more accessible to the ACRS. Information of the SRP is available to the NRC through the procedural agreements and we look forward to additional requests from you through those mechanisms.

Sincerely,

J.O. Neff
