the NRC/DOE Site Specific Agreement and the scheduling of future workshops and data review meetings. Attending from DOE will be top officials of USGS and affected National Labs and Dr. Vieth and WMPD personnel. Mr. Mark Frei, DOE/Hq. is also scheduled to attend.

3. I have reviewed the Draft QA Review Plan and, with a few small nits, found it to be excellent. I called Jim Kennedy, WMPD and discussed the document with him. I strongly urge that this document be finalized and given to DOE as soon as possible. Time is getting short for DOE to act on the guidance we give them.

4. I will be attending a tour of the NTS facilities with the AMFM (Alternative Means of Financing and Managing Radioactive Waste Facilities) panel and Dr. Vieth on Monday, April 9.
