JUL 1 1986 Distribution:

(Return to WM, 623-SS)

Robert Loux, Director
Nevada Nuclear Waste Project Office
Capitol Complex - Suite 252
1802 North Carson Street
Carson City, NV 89710

Dear Mr. Loux:

This is in response to your letter to Mr. John Davis of June 3, 1986, requesting informal meetings between your office and members of my staff. We would like to confirm arrangements pursuant to discussions between you and Nancy Still for a joint meeting between NRC and your office in early August.

The meeting has been scheduled for August 5, 1986, in Carson City, Nevada; and the agenda items are as follows:

1. Quality assurance requirements for HLW repositories, including QA technical positions under development and the "stop work order" situation on the Nevada project
2. Status of NRC's Licensing Support System/Negotiated Rulemaking
3. Issue resolution during pre-licensing
4. Establishment of local public document rooms for NRC's material on the Nevada project

We will, at a later date, provide you with attendee information. The NRC's Division of Fuel Cycle and Material Safety is working with my staff on your request for a joint presentation by NRC and the Department of Transportation (DOT) to the Nevada Commission on Nuclear Projects and the Nevada Legislative Study Committee. Please contact Nancy Still if you have any questions, and we look forward to meeting with you in August.

Sincerely,

151

Joseph O. Bunting, Chief
Policy and Program Control Branch
Division of Waste Management

Dear Mr. Loux:

This is in response to your letter to Mr. John Davis of June 3, 1986, requesting informal meetings between your office and members of my staff. We would like to confirm arrangements pursuant to a discussion between you and Nancy Still for a joint meeting between NRC and your office in late July.

The meeting has been scheduled for July 29, 1986, in Carson City, Nevada; and the agenda items are as follows:

1. Quality assurance requirements for HLW repositories, including QA technical positions under development and the "stop work order" situation on the Nevada project
2. Status of NRC's Licensing Support System/Negotiated Rulemaking
3. Issue resolution during pre-licensing
4. Establishment of local public document rooms for NRC's material on the Nevada project

We will, at a later date, provide you with attendee information. The NRC's Division of Fuel Cycle and Material Safety is working with my staff on your request for a joint presentation by NRC and the Department of Transportation (DOT) to the Nevada Commission on Nuclear Projects and the Nevada Legislative Study Committee. Please contact Nancy Still if you have any questions.

Sincerely,

Original Signed By:

Joseph O. Bunting, Chief
