Dear Mr. Davis:

As we have been discussing, I would like to propose several informal meetings between this Office and members of your staff on selected topics of interest to us.

Initially, I believe that a half-day discussing quality assurance would be extremely useful. This discussion could include a general description of the Nuclear Regulatory Commission (NRC) quality assurance requirements for high-level radioactive waste repositories, a description of the NRC initial thinking regarding a generic technical position paper on quality assurance and your staff's view of the current "stop work order" situation on the Nevada project--and how that might affect the existing data base. I believe that Mr. Dale Hedges, of your staff, would be most helpful in this discussion.

Secondly, I would propose a half-day discussion of the negotiated rulemaking on the licensing support system currently being contemplated by the Commission. In this regard, a better understanding of the negotiated rulemaking process and procedures would be very productive, in addition to a general discussion of the scope and/or limitation of the system itself.

In looking at our schedule here, I would propose to have these discussions sometime during the last two weeks of July. The two topics could make up one full day, or be broken up into two half-day meetings. I would look to your schedule, and that of your staff, regarding these specifics.

Regarding transportation, I believe that your suggestion for a joint presentation by yourself and the Department of Transportation is a good one, and perhaps should be a little more formal. We might also convene a combined meeting between the Nevada Commission on Nuclear Projects and the Nevada Legislative

Study Committee for such a presentation. My feeling is that this could take a bit more planning than the other two meetings, but we could plan for your presentation on this matter in late September in Las Vegas, depending on your planning schedule, etc. Please advise on this one.

I hope that you find this proposal, the topics and schedule, agreeable. I look forward to hearing from you. Thanks again for your presentation before the Commission.

Should you have any questions, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Robert R. Loux". The signature is fluid and cursive, with a large, sweeping initial "R".
