MEMORANDUM FOR: Robert E. Browning, Director
Division of Waste Management

FROM: Malcolm Knapp, Chief
Geotechnical Branch
Division of Waste Management

SUBJECT: Site Technical Position NNWSI STP-1.0

Attached please find the final Site Technical Position NNWSI STP-1.0 closing out OPS commitment 5314216.42. The final STP, with minor editorial revision, is essentially the same as the draft version transmitted to DOE and the State of Nevada for comment in September.

One Comment was received on the draft STP from the State of Nevada. They suggested using the term "hydrostratigraphic units" instead of "hydrogeologic units." Since the aquifers and stratigraphy at NNWSI do not appear to be correlated (i.e. no classical hydrostratigraphic units), the original term will be retained.

DOE has not yet submitted any comments. Upon receipt of any comments from DOE, the final STP may be revised as appropriate.

This document is being distributed to WMRP for appropriate coordination.
